RE: 13-86

I vehemently oppose any changes to the current FCC indecency standards that would allow television and radio stations to broadcast expletives and nudity on the public airwaves even if 'fleeting', **especially** during times when kids would most likely be watching/listening.

I think it would only speed the deterioration of our society and of our civilization. **Please** reject all proposals that would allow FCC –licensed television and radio stations to broadcast expletives and nudity on the public airwaves.
